To Whom It May Concern,

**RE: TST Certification of Net Entertainment RNG**

This Certification Letter pertains to Technical Systems Testing (TST)'s evaluation and resultant certification of the Net Entertainment Random Number Generator (RNG).

TST's evaluation of the Net Entertainment RNG was limited to the Laboratory Environment, and was performed with the aim of verifying compliance with the following requirements:

1. Generally accepted industry standards for highly regulated jurisdictions, and
2. The manufacturer's specifications.

TST has verified through mathematical and statistical analysis, within a ninety-five percent (95.0%) confidence level (this is a documented level of confidence for such statistical analysis), that the Net Entertainment RNG distributes numbers with sufficient non-predictably, fair distribution and lack of bias to particular outcomes.

Subject to the standard limitations outlined within the Final Report, the Net Entertainment RNG complies with the requirements. TST certifies the Net Entertainment RNG for use within highly regulated jurisdictions, for use with the following games / applications:

<b>Degrees of Freedom</b>	<b>Associated Games / Applications</b>
One (1)	Hi-Lo
Five (5)	Craps
Sixteen (16)	Skeet Shooter
Thirty-Six (36)	Roulette
Fifty-One (51)	Blackjack & Jacks or Better
Seventy-Nine (79)	Keno

TST's evaluation was performed using a particular version of the Net Entertainment RNG. TST's evaluation was based on specific information and materials as outlined within the Final Report (including, but not limited to, source code and software), as submitted to TST on February 01, 2005. For verification purposes, TST has maintained a control version of all information and materials as listed above.
